

Crystallizing our understanding of botulinum neurotoxin

Rongsheng Jin, Ph.D

Professional Positions:

- 2015/07-current Professor, Department of Physiology and Biophysics ,
University of California, Irvine, CA.
- 20013/04-2015/06 Associate Professor, Department of Physiology and Biophysics ,
University of California, Irvine, CA.
- 2007/09-2013/03 Associate Professor, Neuroscience, Aging & Stem cell Research Center
Sanford-Burnham Medical Research Institute, San Diego, CA

报告时间 : 2016年7月26日 上午10 : 00 – 11 : 00

报告地点 : 复旦大学江湾生命学院大楼G511会议室

Research interests :

Structure and function of synaptic proteins; neurotoxins and receptors; protein complexes; protein-protein and protein-ligand interactions; X-ray crystallography. Focuses on the botulinum neurotoxins, which are among the most poisonous substances known to man.
